

KAVACH DEMO REFINERY - Engineering Calculation: P-101 Discharge Line (Fictional)

*** FICTIONAL DEMONSTRATION DATA - NOT REAL FACILITY DATA ***

Corrosion rate estimated at 0.3 mm/year.

Measured thickness: 6.8 mm. Minimum allowable: 6.4 mm.

Remaining life $\sim (6.8 - 6.4) / 0.3 = \sim 1.3$ years.

Recommend scheduling repair or replacement before next inspection cycle.

Safety factor per ASME B31.3 (illustrative only).
